CENTRIC DOCUMENT BUILDER FOR SAP® SOLUTIONS

Discover a new method of process-related document creation: With the Centric Document Builder, you can create documents using templates, text modules and rules that you can create and modify yourself at any time without requiring IT support. In a transparent process, you create high-quality and CI-compliant documents, such as work contracts, employee letters or certificates. By optimizing this process, your company saves both time and money.

Centric Document Builder for SAP® solutions was developed specifically for the integration in SAP® HCM and SuccessFactors®. Integration in third party applications is possible upon request.

You have the choice of three editions to help ensure you find the right solution for your requirements and company goals. These editions vary in their different performance options. Whether Essentials, Professional or Enterprise, you decide which functions your application should have for creating documents.

Choose the version that fits your company:

Essentials
2,500 €*

plus 0.25 € per document*

With the Essentials edition, you can get started immediately and intelligently create documents. For companies with up to 500 employees.

Professional
8,000 €*

plus 0.25 € per document*

With the Professional Edition you can create process-related documents and optimize your processes.

Enterprise
Price on request

The Enterprise edition provides you with complete access to all functions with the greatest possible flexibility for process-related document creation.

*This offer refers to a contract period of 3 years.
The displayed prices refer to the annual subscription.
