

CENTRIC SAP HCM ADD ON TOOLS

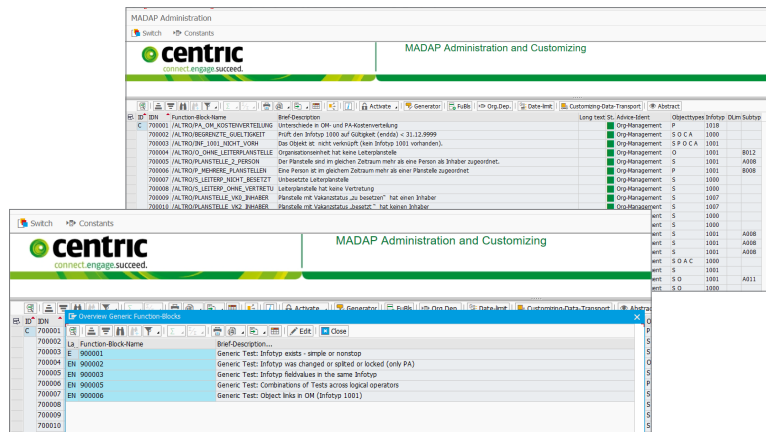

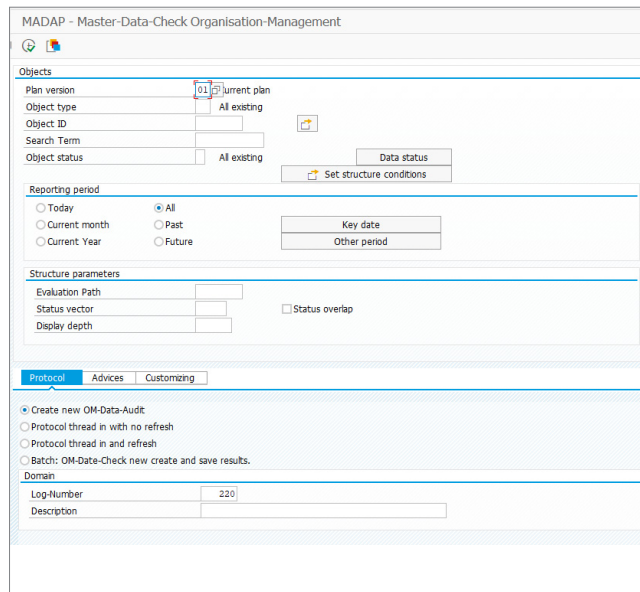

MADAP PA/OM

MASTER DATA AUDIT PROGRAM
FOR SAP HCM PA/OM

Sample applications

- Quick and easy checking of field content for gaps, errors or inconsistencies
- Complex and linked company-specific items to be checked from the fields of tax, e.g. ELSTAM, social insurance, the German Data Collection and Transmission Regulation (DEÜV), statistics, garnishment, working hours, company pension schemes, SEPA, etc.
- Processors conduct subject-related checking tasks in an audit-proof manner, e.g. they check contract-related data or by certain types of measures
- Checking of organisational assignments, such as employee structure
- Comprehensive and regular checks of all relevant personnel master data
- Customer-specific fields in standard and customer-specific infotypes can be integrated and queried immediately
- Individual checking rules in individual infotypes can be linked to complex queries or conditions without extensive effort

MADAP OM master data checks

Reference customers

Today, more than 380 SAP HCM customers throughout Germany from all business sectors rely on SAP HCM products from Centric. We currently review more than 5 million SAP HCM personnel payroll transactions per month.

We offer a free four-week test phase so that you can obtain a good impression of what Centric tools can do in advance. As part of this test phase, we will deploy an experienced Centric SAP HCM consultant to your business location for one day, who will guide you through the set-up and first checks. This consultant is your personal contact throughout the entire test phase.

If you do not have the time or resources for a trial period, we will also gladly put you in touch with a reference customer in your vicinity. This will allow you to obtain a first impression of the various applications of Centric tools in daily business operations.

Only those who have actually tested the Centric SAP HCM Tools in their SAP HCM system will know how valuable and profitable Centric tools can be in their daily work with SAP HCM.

- Robert Bosch GmbH, Stuttgart 150,000 payroll transactions per month
